Subject: Re: confirming thursday

Hi Linda,

So far no has stepped up and/or is available to come in person.

In addition, Andy Hartzel went back to his previous position as attorney. While my previous contact Patrick Patterson is now the Director for SERO.

They have all still accepted to participate via telephone.

Hello Maya,

Yes, Thursday is confirmed. Who is the individual who wishes to join the call? Please provide his email and I will add him to the invite. FYI: As you may know this meeting is invite only and anyone who wishes to participate should provide their name and email address. Looking forward to meeting you on Thursday.

Thanks Maya

P.S

I will send the invite again to confirm on Wednesday to all invited. It will contain the call in number and code.

Hi Sasha
Just confirming Thursday

Also, one of the gentleman joining the meeting who used to work at the site has had a situation come up and so can't join us in person but would like to try to be on the phone line. Can you please provide the call in information so I can share that with him. Thank you
maya

Hi Sasha,

I am terribly sorry, but I have been on the road for the past month. I did connect with Maya, however I will be traveling that week too, However, please, carry on and Maya can keep me apprised. I really do not want further delays due to my crazy schedule.

Thanks for all your help!

Good Morning Maya,

Thx for your understanding. Yes, we are conducting the meeting @ our R3 office in Philadelphia. PADEP reps are scheduled to participate on the phone. By all means, please do join us in person should your schedule permit.
Also, please allow 30 minutes to go through our security area.

Thank you Kinshasa for letting us know what happened

Yes, trust technology comes with risks – smiling
I am able to do that day and time on my calendar
and am just checking in with Ms. Tomei.

Also, will you be doing this call out of the Philly
office of EPA? If so I may like to try and join you
there.

maya

Inquiry Call (Call-in # & Code TDA) [WARNING: SPF validation failed]

Hello Maya,

My apologies for not making mention to the change in time in the body of the scheduler I sent. I relied upon technology to make the changes on everyone's calendar without recognizing that this may not happen to our guests outside of EPA & DEP. Please do accept my apology as well.

Moving forward, the first available date for ALL interested parties to join would be May 18th @ 10am. I know this is quite far off however I believe that it's important for all of us to join in and discuss your concerns. I look forward to the discussion and I sure hope this date works for you and M.P.

Inquiry Call (Call-in # & Code TDA) [WARNING: SPF validation failed]

Hi All

MP and I are sorry we missed the call. We both had it on our calendars for 11:30 as per the original scheduled appointment. It took a while to figure out how we were on one time page while you were on another.

Upon investigation what I see happened is that in the 'it's back on email' while the time was

apparently changed in the subject line, the time change was not included in the body of the email nor was there any discussion about the change of time to ensure it worked on our end. As a result when I saw "This conference call is back on!" with no discussion of changed time, I simply assumed it was the agreed upon day and time that was back on. I think that is what happened with MP as well. I think it is the lack of discussion of the time change in the body of the email to ensure we could make this time and to make sure we saw the change of time is what resulted in the confusion.

Mary Pat and I compared calendars and can both do a call on Monday if that works for you, or on tuesday at either 10 am or after 1:00.

Will that work on your end?

Thanks
Maya
